WORK

Freelance Web Developer
michaelgrigsby.com
10/2021 - current
 • Created responsive user experience with CSS flexbox and grid for dynamic website designed mobile-first
 • Pushed call-to-action, with a minimalist design as per client request
 • Engaged in continuous communication with client to maintain deadlines
 • Utilized BEM naming conventions and CSS best practices

Culinary work experience (2010-2021)
Private Chef 1/2021 - current
Sparrow Bakery - Baker/Mixer 12/2019 - 12/2020
Call - Executive Sous Chef 07/2018 - 10/2019
 • Constant career growth led me to attain sous chef in multiple fine dining restaurants over a 12 year career
 • Managed multiple teams of upwards of 10 employees, effectively communicating with front and back of house staff
 • Efficiency, attention to detail, and meeting deadlines became primary points of focus
 • Cut food costs by over 30% through reassessing menu items while maintaining food quality at multiple restaurants

PROJECTS

Personal Portfolio
JONGRIGSBY.COM
 • Designed and developed responsive and dynamic website with user experience in mind
 • Utilized visual and graphic design principles
 • Integrated Illustrator with HTML, SASS and Javascript

Cloned websites
 • Utilized resources provided by FrontEndMentor.com to clone sites from scratch, mimicking client requests
 • Focused on HTML, CSS, and vanilla Javascript
 • Adhered to industry standards for mobile-first responsive websites suitable for all devices

React Movie search App
 • Built and deployed dynamic mobile-first app while learning new framework
 • Designed front-end with user experience in mind using SASS and styled
 • Managed state and custom hooks to asynchronously pull REST API information
